October 23rd 2007

Dear Nick and Dave,

Jen and I would like to thank you for the excellent catering that you provided for our wedding on September 22nd at Stationer's Hall. As I commented during my groom's speech, not one person had anything but the highest praise for the food which was provided. We are particularly grateful for the trouble you took to cater for the children and young people, and for awkward people like myself with dietary requirements.

Your staff were professional, polished and helpful without being intrusive, and overall you were largely responsible for making the day as much of a success as it was.

We also wish to thank Nick for finding the time to ensure that we both had a little time to ourselves and for acting as toastmaster during the wedding breakfast.

We will be happy for you to quote us in any of your publicity material as regarding Life's Kitchen as being first class caterers in every respect and very good value for money.

We both hope not to have to use you at a wedding for either of us again, but we will certainly warmly recommend you to anyone who asks!

Yours sincerely,

Paul and Jenny

25th July

Dear Nick and Dawn,

What can we say other than we were absolutely delighted with the quality of the service, the staff that looked after us and the superb food and wine. From our first contact to the preparation and delivery on the day itself, everything was taken care of as promised. We do appreciate just how hard you and your team worked to make it such a success whilst making it all seem so effortless.

Please accept our grateful thanks for making our day a truly happy and memorable occasion, despite the damp weather. We would be happy to recommend 'Life's Kitchen' without reservation and wish you every success with future ventures.

With kind regards,

Jackie and David Boulton.
